Vowels, Scat and Percussive Sounds

OO	as in	Shoe
OH		Show
OW		Cow
E		Her
EH		Get
AH		Car
A		Tap
AI		My
EE		Me
I		Dip
U		tongue

Standardise wow , woa, woah to Whoa

Diphthongs in English are not written so:
Oh not Ohw etc.

Scat:

Single letters are harder to understand than if a vowel is associated e.g.

'Doo ba doo' or 'doo be doo' easier to read than 'doo b doo'

'Dum' or 'doom' perhaps easier than 'dm' . 'Dung' easier than 'dng' etc.

Be careful using single voiced consonants - without a vowel they make no sound at all.

Voiced

A simple explanation of voiced consonants is that they use the voice. This is easy to test by putting your finger on your throat. If you feel a vibration, the consonant is voiced.
